

# Fastlane IntelliGate

## Concept

Fastlane IntelliGate serves as the next generation in passgate technology, by integrating Fastlane optical technology to ensure unauthorized users and tailgaters are detected. Available in two lane widths, it also allows seamless movement for people with carts or packages. IntelliGate can be controlled by an access control system, pushbutton, or remotely by a guard at a reception desk. IntelliGate is an ideal complement to other Fastlane turnstiles or appropriate as a stand-alone security solution. IntelliGate can also be configured as a standard passgate, without Fastlane optical technology.

## Advanced intelligence

Unlike typical passgates, IntelliGate is an incredibly intelligent computer. At the core of every IntelliGate, an infrared beam matrix is coupled with a custom-designed microprocessor equipped with neural network programming. Fastlane analyses pedestrian movement with pinpoint accuracy—it is designed to detect tailgaters at just ¼ inch apart. Inherently more secure, this technology also yields the fastest throughput and highest alarm accuracy.

## Operation

IntelliGate is designed to ensure only one person gains access for each authorization granted. The glass barriers swing away from an authorized user. Barriers then either:

- > Close quickly behind the authorized person to deter tailgaters
- > Stay open for immediate additional authorized users passing in either direction IntelliGate will automatically sound a local alarm if someone enters without authorization.
- > Efforts to push past the glass barrier will sound a second, louder alarm
- > A secondary relay can trigger CCTV, lock doors, or control elevators

## Passgate Configuration

The unit can also be configured as a standard passgate requiring supervision. The barriers will remain open until security remotely closes them. While open, any amount of people can walk through in either direction.

## User-friendly and safe

IntelliGate barriers automatically:

- > Slow to a crawl to avoid contact when safety beams sense an object in the way
- > Break away in either direction to minimize injury or damage

Optionally, barriers can be configured to open in the exit direction upon fire alarm or power outage.

## The Centaman advantage...

- *Technically superior products*
- *Sydney based 24/7 support helpline*
- *Local offices for a faster response*
- *Flexible support packages*
- *Supply only to turnkey project delivery options*
- *14 Years experience in successfully delivering entrance control solutions*

## Key Benefits

- **European Designed & Manufactured**
- **Intelligent**
- **IR Sensors to Detect Tailgating**
- **Motorised for Ease of Use**
- **12 Month Warranty**
- **Integrates with most Ticketing, Membership and Access Control Systems**
- **Remote access option for maintenance, trouble shooting & configuration**
- **Choice of Barrier Options**
- **Applications**  
Corporate Offices,  
Government Buildings,  
Sports Stadia, Leisure Clubs  
and Manufacturing Facilities

## Specification

### Dimensions

162mm(L) x 162mm(W) x 970mm(H)

### Electrical

Power Supply : AC 110V / 220V

Frequency : 60 / 60 Hz

Power Consumption

: Standby 50W

: Operational 300W

Control Logic

: Microprocessor Control

Operating Temp

: 0°C to 50°C

Humidity

: 80%

Motor

: 24V DC

### Operation

Control

: Card In / Card Out

Card In / No Exit

Card In / Free Exit

Locked

### Materials

Barrier : 8mm Toughened Safety Glass

: Brushed Stainless steel Pedestal

### Options

Remote Control

Power Supply

Mobile Base

*NB: Specifications subject to change without prior notice*

## About CENTAMAN

CENTAMAN Systems Pty is the exclusive distributor for some of the world's most prestigious entrance control brands that are used to protect leading corporations, governments, leisure and education facilities as well as retailers around the globe. The products highlighted here are just some of the options available that make up the CENTAMAN portfolio of entrance control solutions.

With over 14 years experience successfully delivering entrance control solution and over 40 staff and operates 5 offices throughout Australia and New Zealand CENTAMAN is the ideal choice of partner for all your entrance control requirements. CENTAMAN offers supply only to full turnkey installation projects and has a variety of flexible support and maintenance options to ensure the ongoing reliable operation of your entrance control solution all backed by a Sydney based 24/7 support telephone support help-line.
