

Centurion Full Height XGL

The Centurion XGL is a full-height motorised turnstile which combines high security and aesthetics. Quality, reliability and easy operation are the hallmarks of the Centurion XGL making it ideal for high security applications where the full automatic identification of people is required.

Aesthetic

The Centurion XGL is designed for indoor applications in offices where the first impression is a key criteria. The combination of a stainless steel and glass panels provides a high security solution with an open, friendly look.

Reliable

The Centurion XGL comes with a sealed motorised drive which provides greater reliability, lower maintenance and faster, easier throughput than traditional mechanical units.

Safe

The Centurion XGL can integrate with the fire alarm system so it free wheels in an emergency.

Flexible

The XGL is available with a matching motorised side gate to provide opening of up to 1500 mm for wheelchair access, deliveries and any other wide lane access requirements.

Remote Control

The turnstile can be supplied with a desk mounted console or PC software to provide the reception team with easy control of the turnstiles functionality to facilitate visitor entry, simplify alarm monitoring and change operational modes.

In addition the turnstiles can be configured to allow remote diagnostics allowing engineers to dial in and undertake remote maintenance, servicing, configuration and trouble shooting saving on expensive site visits.

The CENTAMAN advantage...

- *Technically superior products*
- *Sydney based 24/7 support helpline*
- *Local offices for a faster response*
