

Belgravia Waves Aquatic Centre—Baulkham Hills

Key Hardware:

- 2 Centurion Tripod 100 Tripods
- Centurion PushGate + PE Beams
- Bar Code Reader
- CENTAMAN Membership System

The Customer

The Waves Aquatic Centre in Baulkham Hills is operated by Belgravia Leisure, one of the leading leisure management companies in Australia. The centre consists of a fitness centre, outdoor Olympic pool and a dedicated enclosed learn to swim pool.

The Challenge

The Waves Centre has been using the CENTAMAN solution for membership, CRM, Swim School, Bookings and POS for over 4 years. They recently wanted to implement an effective access control system to enable valid members to quickly and easily gain access to the centre whilst ensuring non members can't gain access thereby protecting their revenue stream.

The Solution

The Waves Centre consulted with CENTAMAN Systems as to the best solution to automate members' entry and exit. The final solution consisted of a Centurion 100 Tripod Turnstile for entry. These were supplied with an integrated bar code reader and interfaced with the CENTAMAN membership system. When a member presents their card at the turnstile the CENTAMAN software verifies that the membership is valid and the person has arrived during their correct time slot. For exit there is a passgate that has been linked to a set of PE beams so that it opens automatically as someone exits. The gate has also been integrated with a desk mounted control to open the gate thereby enabling disabled access in to and out of the centre as well as allowing access for large school groups.

One of the key benefits of the automated process is that it has freed up the reception team, so instead of the time consuming process of verifying whether someone is a valid member and there at the right time, they can now focus on bookings, new members and general day to day queries which enables them to provide a more responsive service and members are gaining access to the site faster than before.

'CENTAMAN worked with us to provide a suitable solution to our security needs that was highly cost effective whilst fitting in with our space constraints. In addition we wanted to single source our software management solution and our entrance control solution' says Paul Curtis, the Regional Manager for Belgravia, 'This way we have a single point of contact, with a 24/7 telephone support line, if there are any problems with any part of the system.'

About CENTAMAN

CENTAMAN Systems Pty is the exclusive distributor for some of the world's most prestigious entrance control brands that are used to protect leading corporations, governments, leisure and education facilities as well as retailers around the globe. The products highlighted here are just some of the options available that make up the CENTAMAN portfolio of entrance control solutions.

With over 14 years experience successfully delivering entrance control solution and over 40 staff and operates 5 offices throughout Australia and New Zealand CENTAMAN is the ideal choice of partner for all your entrance control requirements. CENTAMAN offers supply only to full turnkey installation projects and has a variety of flexible support and maintenance options to ensure the ongoing reliable operation of your entrance control solution all backed by a Sydney based 24/7 support telephone support helpline.
