ARCHITECTURAL SERVICES

HELPING YOU MAKE THE RIGHT ENTRANCE

Entrance Control

OUR CUSTOM DESIGN SERVICE

At Centaman Entrance Control, we believe that the best architectural concepts combine practicality and security with a striking design.

If you are looking for a turnstile for your next project, you can either take one of our standard designs and customise it, or custom-design a turnstile from the ground up.

The Centaman Entrance Control range can be customised with an almost limitless choice of colours, textures and materials – allowing you to unlock your architectural vision and achieve the exact finish you desire.

Contact our design team to find out more.

02 9906 7522 - sales@entrancecontrol.com.au

OUR CUSTOM PEDESTAL FINISHES

Our custom pedestals come in an array of attractive finishes:

- Brushed stainless steel
- Corian
- Marble
- Black stainless steel
- Bronze
- Polished stainless steel
- Stone
- Wood
- Powder coated in RAL paint colours
- Rimex coloured stainless steel.

As the premier security gate solution in the southern hemisphere, we are the only provider to offer such an extensive range of tailored turnstile solutions.

OUR SERVICES

Centaman Entrance Control is here to help with every step of your project. Our dedicated team of turnstile design experts will work with you from specification right through to installation and project completion to ensure the final results meet your needs.

In addition to our product customisation and installation service, we can:

- Provide you with data sheets, technical specifications and DWG files
- Mock up layout designs, AutoCAD footprints and AutoCAD visualisations
- Supply Revit files for each turnstile
- Deliver 3D renderings
- Produce CPD presentations
- Analyse traffic flow/throughput formulas
- Create conduit and cabling drawings
- Provide a custom turnstile design service' to bottom of list.

Our stylish turnstiles help any reception area work seamlessly, while ensuring a high level of security to protect your employees and assets.
