

## Centurion Full Height MAX

### Concept

The Centurion MAX is a stylish & rugged full framed turnstile to protect users from the elements. The standard finish is a central pillar of stainless steel with a Polyester Powder Coat paint finish to a specified RAL Colour outer parts. Options include a complete stainless steel housing. High Aesthetics, quality, reliability and easy operation are the hallmarks of the Centurion MAX making it ideal for high security applications where the full automatic identification of people is required.

### Flexible

The Centurion MAX is designed for outdoor applications. The outer paint finish can be colour coded to match the local environment.

### Intelligent

The Centurion MAX automatically sets its speed based on how hard the user initially pushes the turnstile to set it in motion.

### Tailored to Suit

The Centurion MAX can have the majority of its settings like torque, speed, timeout period, sensitivity, fire alarm integration, brake performance and card buffering adjusted on site, or remotely to ensure its performance best matches the site requirements.

### Reliable

The Centurion MAX comes with a sealed motorised drive which provides greater reliability, lower maintenance and faster, easier throughput than traditional mechanical units.

### Safe

The Centurion MAX can integrate with the fire alarm system so it free wheels in an emergency.

### Flexible

The MAX is available with a matching motorised side gate to provide opening of up to 1500 mm for wheelchair access, deliveries and any other wide lane access requirements.

### Remote Control

The turnstile can be supplied with a desk mounted console or PC software to provide the reception team with easy control of the turnstiles functionality to facilitate visitor entry, simplify alarm monitoring and change operational modes.

In addition the turnstiles can be configured to allow remote diagnostics allowing engineers to dial in and undertake remote maintenance, servicing, configuration and trouble shooting saving on expensive site visits.

### The Centaman advantage...

- *Technically superior products*
- *Sydney based 24/7 support helpline*
- *Local offices for a faster response*
- *Flexible support packages*
- *Supply only to turnkey project delivery options*
- *14 Years experience in successfully delivering entrance control solutions*

### Key Benefits

#### High Security

- Prevents Climb Over Attempts
- Deters Tailgating
- Suitable for Unmanned Areas

#### Reliable

- Made in Europe
- MTBF of 3,000,000 operations
- 24 month warranty
- Sealed Motor for "Maintenance Free" Operation

#### Advanced Technology

- Remote Turnstile Diagnostics
- Bespoke PC monitoring solution

#### Applications

- Warehouses, factories, offices, stadia, Perimeters, Airports, Research Labs

#### Variations

- Available as a single unit, double unit and with motorised or mechanical side gates

## Specification

### Dimensions

Standard: 1170mm(L) x 1430mm(W) x 2465mm(H)

Power Supply Input	: 230 volts
Control Electronics	: 13.8 V DC
Current	: Standby 0.1 A
Consumption	: Operational 3 A
Operating Temp	: -30°C to 50°C
Humidity	: 80%
Motor	: 13.8V DC
Operation Mode	: Fail Safe
Control	: Card In / Card Out Card In / No Exit Card In / Free Exit Locked Free Wheel

### Operating Parameters

- Operating temperature: -30°C to +50°C
- Humidity: maximum 80%
- MCBF: 3,000,000 cycles (Mean cycle before failure)

### Standard Finish

- 120° Barrier Wings (3 sections)
- 630mm "walk zone"
- Casework - Steel sheet Polyester Powder Coated
- Central pillar with arms - Polished Stainless Steel
- Anticorrosion treatment
- Fail Safe Motor

### Cost Options

- 90° Barrier Wings (4 sections)
- Complete enclosure finished in Stainless Steel
- Traffic Light/Traffic Light Holder
- Ceiling Light
- Card Reader Mounting Options
- Fail Secure Motor

### Variants

- Motorised Side Gate for DDA compliance
- Double Unit
