

# Centurion Full Height XGL

## Concept

The Centurion XGL is a full-height motorised turnstile which combines high security and aesthetics. Quality, reliability and easy operation are the hallmarks of the Centurion XGL making it ideal for high security applications where the full automatic identification of people is required.

## Aesthetic

The Centurion XGL is designed for indoor applications in offices where the first impression is a key criteria. The combination of a stainless steel and glass panels provides a high security solution with an open, friendly look.

## Intelligent

The Centurion XGL automatically sets its speed based on how hard the user initially pushes the turnstile to set it in motion.

## Tailored to Suit

The Centurion XGL can have the majority of its settings like torque, speed, timeout period, sensitivity, fire alarm integration, brake performance and card buffering adjusted on site, or remotely to ensure its performance best matches the site requirements.

## Reliable

The Centurion XGL comes with a sealed motorised drive which provides greater reliability, lower maintenance and faster, easier throughput than traditional mechanical units.

## Safe

The Centurion XGL can integrate with the fire alarm system so it free wheels in an emergency.

## Flexible

The XGL is available with a matching motorised side gate to provide opening of up to 1500 mm for wheelchair access, deliveries and any other wide lane access requirements.

## Remote Control

The turnstile can be supplied with a desk mounted console or PC software to provide the reception team with easy control of the turnstiles functionality to facilitate visitor entry, simplify alarm monitoring and change operational modes.

In addition the turnstiles can be configured to allow remote diagnostics allowing engineers to dial in and undertake remote maintenance, servicing, configuration and trouble shooting saving on expensive site visits.

## The Centurion advantage...

- *Technically superior products*
- *Sydney based 24/7 support helpline*
- *Local offices for a faster response*
- *Flexible support packages*
- *Supply only to turnkey project delivery options*
- *14 Years experience in successfully delivering entrance control solutions*

## Key Benefits

### High Security

- Prevents Climb Over Attempts
- Deters Tailgating
- Suitable for Unmanned Reception Areas

### High End Aesthetics

- Architect Inspired
- 'Open' Design
- Stainless Steel and Glass Materials
- European Styling and Manufacture

### Reliable

- MTBF of 3,000,000 operations
- 24 month warranty
- Sealed Motor for "Maintenance Free" Operation

### Advanced Technology

- Remote Turnstile Diagnostics
- Bespoke PC monitoring solution

### Applications

- Corporate Offices, Government, Airports, Research Labs

### Specification

#### Dimensions

Standard: 1365mm(L) x 1540mm(W) x 2460mm(H)  
Lane width 550mm

Power Supply Input :230 volts  
Control Electronics : 12 V DC  
Current : Standby 0.1 A  
Consumption : Operational 3 A  
Operating Temp : -30°C to 50°C  
Humidity : 80%  
Motor : 12V DC

Operation Mode : Fail Safe  
(Fail Secure Option)

Control : Card In / Card Out  
Card In / No Exit  
Option Card In / Free Exit  
Locked  
Free Wheel

#### Operating Parameters

- Operating temperature: -30°C to +50°C
- Humidity: maximum 80%
- MCBF: 3.000.000 cycles (Mean cycle before failure)

#### Options

Motorised Side Gate for DDA compliance  
Fail Secure Motor  
LED Traffic Lights  
Card Reader Poles  
Touch Panel Remote Control

*For Remote Turnstile Maintenance access to the sites network is required and the service is subject to a support agreement*

***NB: Specifications subject to change without prior notice***

### About CENTAMAN

CENTAMAN Systems Pty is the exclusive distributor for some of the world's most prestigious entrance control brands that are used to protect leading corporations, governments, leisure and education facilities as well as retailers around the globe.
