EasyStile **V70**

SLIMLINE, STYLISH SPEEDGATE

KEY FEATURES

- Sleek 110mm-wide pedestal
- Stylish speedgate with colour-changing light strips
- Powerful 60W planetary motor
- Rapid opening and closing speed supports throughput of up to 45 people per minute
- Up to 1200mm DDA-compliant lane to support accessibility
- Can be integrated with third-party access control systems and membership systems
- Barrier heights up to 1800mm
- Waterproofing option available to support outdoor use
- Fire alarm integration for emergency safety
- Two-year warranty

The EasyStile V70 is a stylish and high-quality speedgate designed to secure corporate offices and prestigious leisure facilities. Its sleek finely crafted frame and streamlined appearance suit lobbies, leisure centres and the dividing of office spaces.

SLIMLINE FOOTPRINT

The V70's 110mm-wide pedestals ensure the gate takes up no more space than it needs to. It can welcome up to 45 people per minute while delivering premium EasyStile security.

POWERFUL PLANETARY MOTOR

A 60W planetary motor drives this model, offering higher torque and better load capacity than standard brushless motors for smoother, more dependable operation.

SMART SENSORS

Infrared sensors generate an audible alarm in the event of unauthorised entry, tailgating or approaches from the wrong direction. The sensors monitor a person through the lane, closing the barrier as soon as the person exits. They also act as safety sensors, keeping the gate open if the sensors are covered.

PREMIUM AESTHETIC

Light strips embedded in the black body enhance the V70's super-slim appearance, turning green at the front and red at the back when a valid access card is swiped. If required, the V70's appearance can be enhanced further with a wide palette of colour and branding customisation options to synchronise with the surroundings of any environment.

CUSTOMISE SIZE TO SUIT

This EasyStile is available in both standard and wheelchair-accessible lane widths up to 1200mm, making it DDA compliant and allowing wheelchair users, wide loads and people carrying luggage. Barrier heights up to 1800mm can be specified to deter jump-over attempts for sites with higher security requirements, giving facilities flexibility to match protection levels to their needs. An optional remote control is available to allow front-desk staff to operate the gate independently.

IR sensors generate an audible alarm in the event of unauthorised entry or approaches from the wrong direction

IR sensors initiate closing of the gate after a person has passed through

IR sensors and lane length allow for tailgating detection

To protect people passing through, the gate stays open if the IR sensors are covered

SPECIFICATIONS

Model No:	V70
Type:	Speedgate
Framework material:	Cabinet: steel Movement: black powder coated Top + front and back sides: thickened black acrylic
Barrier material:	Plexiglas 10mm (standard) Tempered glass 8mm/10mm (optional)
Dimensions:	1200 * 110 * 978mm
Net weight:	80kg/pcs (single core) 150kg/pcs (double core)
Lane width:	• 600mm (standard) to 1200mm (maximum) • 900mm (recommended disabled lane)
Barrier height:	• 900mm (standard), 1800mm (max.) • For 1800mm (H) and 1200 (W), hollow glass
Passing direction:	Single directional/bi-directional
MCBF:	10,000,000
Power supply:	AC220V/110V, 50/60Hz
Operation voltage:	24V DC
Power consumption:	60W
Operation temperature:	-20°C - 75°C (can be customised)
Operation humidity:	0 ~ 95% (no freeze)
IP level:	IP54 (standard), IP65 (can be customised)
Working environment:	Indoor/outdoor (can be customised)
Flow rate:	45 people per minute (short arm) 25 people per minute (high arm)
Tailgate detection distance:	20cm
LED indicator (strips):	Blue colour: power on, green colour: entry, red colour: no entry
LED sensors (panel):	Green circle: entry, red circle: no entry
Infrared sensor:	10 pairs (standard)
Card reader mount:	On the top of the cabinet Max. dimensions: 100 * 50 * 25mm(can be customised)
Emergency:	Automatic arm open when power off
Communication:	Dry contact, relay signal, RS485
Flexibility:	Can integrate with any access control system

Note: Specifications subject to change without prior notice.
