Entrance Control

EASYGATE LC

STYLISH. DISCREET. FLEXIBLE.

ABOUT EASYGATE LC

The Centurion EasyGate LC is a designed orientated swing barrier speedgate intended to ensure only one person gains access for each authorised card presented. The EasyGate uses glass barriers that swing away form an authorised user in a friendly door like motion in conjunction with optical tailgate detection technology to provide a high throughput / high security gate.

The EasyGate LC is designed to be integrated with destination lift control system. The pedestal is designed to be as narrow as possible but wide enough to fit a 3rd party destination lift control display.

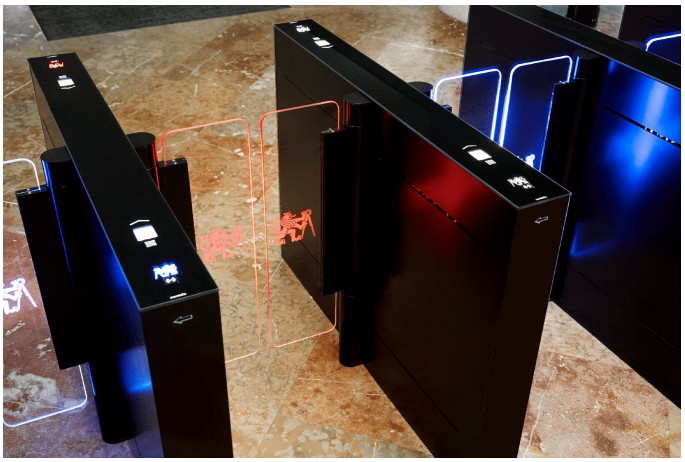
ARCHITECTURAL FLEXIBILITY

The EasyGate LC is supplied in brushed stainless steel and a smoked black glass top and front as standard but can be finished in different coloured stainless steel and supplied with customised glass finished in different colours.

KEY FEATURES

- Architecturally inspired design
- Designed to integrate with 3rd party destination lift control systems
- Swing barrier operation
- Narrow pedestal
- DDA compliant

ASIAL MEMBER
AUSTRALIAN SECURITY INDUSTRY ASSOCIATION LIMITED



OPERATION

The barriers work in a normally closed mode and swing down the pedestal length after a valid card has been presented giving the authorised user a clear lane to pass through. The barriers quickly close behind the authorised person, thereby deterring any unauthorised entry or tailgating.

The glass barrier for the EasyGate ELITE can be up to 1800mm tall to prevent climb over attempts and making it suitable for unmanned applications.

SAFETY

Safety beams monitor the area near the barriers and are designed to prevent the barriers from closing/ opening on an obstruction. The EasyGate has 5 safety and security settings that define the size of the safety zone in the gate's operation. This allows us to tailor its security level to suit your site. Additionally, the barriers feature a torque sensor so they can detect resistance when closing.

When integrated with the fire alarm system and upon a fire alarm, the barriers automatically open to allow for free emergency egress. The barriers can also open in the same manner in the event of a power outage.

RELIABLE

With a MTBF of 3,000,000 and industry leading 24 months warranty the EasyGate LC is designed to provide years of trouble-free operation. In addition, the turnstiles can be configured to allow remote diagnostics allowing engineers to dial in and undertake remote maintenance, servicing, configuration and troubleshooting saving on expensive site visits.

ADD ONS

Th EasyGate LC can be supplied with a number of add-ons to increase security and raise provide superior integration with the access control system, these include anti-climb pressure sensors, expanded alarm outputs and a WAV player to play recorded messages in different scenarios ranging from alarm alerts to invalid card warnings

KEY BENEFITS

- **Fast Acting Barriers**
  - Opening time: from 0.7 seconds
  - Space for 3rd party DLC displays
- **High End Aesthetics**
  - Architect-inspired European design
  - Transparent slim design
  - Stainless steel pedestal design
  - Easily customisable decorative tops to blend in with the building design
  - Same slim pedestal design for wheelchair lanes
- **Reliability**
  - MTBF of 3,000,000 operations
  - 24 month warranty
  - Manufactured in Europe to ISO9001
- **Advanced Technology**
  - Remote Turnstile Diagnostics
  - Bespoke PC monitoring solution
  - 5 Security Settings
- **More Secure**
  - Fast acting barriers close behind authorised users to deter tailgating
  - IR sensors detect tailgating and unauthorised entry
- **User Friendly**
  - No contact barriers provide easy passage, even with bags or luggage
  - Fast acting barriers open away from users
- **Applications**
  - Corporate offices

ABOUT ENTRANCE CONTROL

Entrance Control is the exclusive distributor for some of the world's most prestigious entrance control brands that are used to protect leading corporations, governments, leisure and education facilities as well as retailers around the globe. The products highlighted here are just some of the options available that make up the Entrance Control portfolio of entrance control solutions.
