

EASYGATE LG

PREMIUM. STYLISH. FAST.

ABOUT EASYGATE LG

The Centurion EasyGate LG is our latest retracting barrier speedgate designed to ensure only one person gains access for each authorised card presented. The EasyGate uses glass barriers in conjunction with optical tailgate detection technology to provide a high throughput / high security gate. The new elliptical shaped pedestal streamlines any installation.

OPERATION

The barriers work in a normally closed mode and quickly retract inside the pedestal after a valid card has been presented giving the authorised user a clear lane to pass through. The barriers quickly close behind the authorised person, thereby deterring any unauthorised entry or tailgating.

The EasyGate LG features our state-of-the-art Magnet Drive Motor that provides faster and quieter operation. The glass barrier for the EasyGate LG can be up to 1800mm tall to prevent climb over attempts and making it suitable for unmanned applications.

KEY FEATURES

- High Security Gate
- Fast Acting Barriers
- Whisper Quiet Motor
- Barrier height up to 1800mm
- DDA compliant

SAFETY

Safety beams monitor the area near the barriers and are designed to prevent the barriers from closing/ opening on an obstruction. The EasyGate has 5 safety and security settings that define the size of the safety zone in the gate's operation. This allows us to tailor its security level to suit your site. Additionally, the barriers feature a torque sensor so they can detect resistance when closing.

When integrated with the fire alarm system and upon a fire alarm, the barriers automatically open to allow for free emergency egress. The barriers can also open in the same manner in the event of a power outage.

RELIABILITY

With a MTBF of 5,000,000 and industry leading 36 months warranty the EasyGate LG is designed to provide years of trouble-free operation. In addition, the turnstiles can be configured to allow remote diagnostics allowing engineers to dial in and undertake remote maintenance, servicing, configuration and troubleshooting saving on expensive site visits.

ADD ON'S

The EasyGate LG can be supplied with a number of add-ons to increase security and provide superior integration with the access control system. These include anti-climb pressure sensors, expanded alarm outputs and a WAV player to play recorded messages in different scenarios ranging from alarm alerts to invalid card warnings.

KEY BENEFITS

- **Fast acting barriers**
 - Opening time from 0.4 seconds
- **High-end aesthetics**
 - European architectural design
 - Durable, stainless steel pedestal
 - Customisable tops in a variety of finishes
- **Reliability**
 - MTBF of 5,000,000 operations
 - 36 month warranty
- **Safety**
 - IR beams and torque detection technology prevent barriers closing on obstructions
- **Heightened security**
 - Five security settings
 - Fast acting barriers close behind authorised users to deter tailgating
 - IR sensors detect tailgating and unauthorised entry
- **User friendly**
 - No contact barriers provide easy passage, even with luggage
- **Versatility**
 - Customisable features and a number of optional add-on modules such as anti-climb sensors and a WAV player for pre-recorded messages.

ABOUT ENTRANCE CONTROL

Entrance Control is the exclusive distributor for some of the world's most prestigious entrance control brands that are used to protect leading corporations, governments, leisure and education facilities as well as retailers around the globe. The products highlighted here are just some of the options available that make up the Entrance Control portfolio of entrance control solutions.

With over 14 years' experience Entrance Control is the ideal choice of partner for all your entrance control requirements. Entrance Control offers supply only to full turnkey installation projects and has a variety of flexible support and maintenance options to ensure the ongoing reliable operation of your entrance control solution all backed by a Sydney based 24/7 telephone support helpline.
