

EASYGATE LX

SECURE. ROBUST. EFFECTIVE.

ABOUT EASYGATE LX

The Centurion EasyGate LX is our most cost-effective retracting barrier speedgate designed to ensure only one person gains access for each authorised card presented. The EasyGate uses glass barriers in conjunction with optical tailgate detection technology to provide a high throughput / high security gate.

OPERATION

The barriers work in a normally closed mode and retract inside the pedestal after a valid card has been presented giving the authorised user a clear lane to pass through. The barriers close behind the authorised person to deter unauthorised entry or tailgating.

The glass barrier for the EasyGate LX can be up to 1800mm tall to prevent climb over attempts and making it suitable for unmanned applications.

KEY FEATURES

- Highly Cost Effective
- Barrier height up to 1800mm
- Good for offices and manufacturing plants
- Fire Alarm Integration
- DDA compliant

SAFETY

Safety beams monitor the area near the barriers and are designed to prevent the barriers from closing/ opening on an obstruction. The EasyGate has 5 safety and security settings that define the size of the safety zone in the gates operation. This allows us to tailor its security level to suit your site. Additionally, the barriers feature a torque sensor so they can detect resistance when closing.

When integrated with the fire alarm system and upon a fire alarm, the barriers automatically open to allow for free emergency egress. The barriers can also open in the same manner in the event of a power outage.

RELIABILITY

With a MTBF of 3,000,000 and 24 months warranty the EasyGate LX is designed to provide trouble-free operation. In addition, the turnstiles can be configured to allow remote diagnostics allowing engineers to dial in and undertake remote maintenance, servicing, configuration and troubleshooting saving on expensive site visits.

KEY BENEFITS

- **Fast acting barriers**
 - Opening time from 0.7 seconds
- **High-end aesthetics**
 - European architectural design
 - Durable, stainless steel pedestal
- **Reliability**
 - MTBF of 3,000,000 operations
 - 24 month warranty
- **Safety**
 - IR beams and torque detection technology prevent barriers closing on obstructions
- **Heightened security**
 - Fast acting barriers close behind authorised users to deter tailgating
 - IR sensors detect tailgating and unauthorised entry
- **User friendly**
 - No contact barriers provide easy passage, even with luggage.

ABOUT ENTRANCE CONTROL

Entrance Control is the exclusive distributor for some of the world's most prestigious entrance control brands that are used to protect leading corporations, governments, leisure and education facilities as well as retailers around the globe. The products highlighted here are just some of the options available that make up the Entrance Control portfolio of entrance control solutions.

With over 14 years' experience Entrance Control is the ideal choice of partner for all your entrance control requirements. Entrance Control offers supply only to full turnkey installation projects and has a variety of flexible support and maintenance options to ensure the ongoing reliable operation of your entrance control solution all backed by a Sydney based 24/7 telephone support helpline.
